MERCURY DROPS IN THE CRESCENT CITY

Cold Snap Strikes the Yellow Fever Stricken Section.

VICKBURG RAISES QUARANTINE

In Northern Louisiana the Weather Was Almost Freezing—Many Towns Order the Quarantine Restrictions Raised.

New Orleans, Oct. 23.—The predicted cold snap struck Louisiana during the night, sending the temperature down into the forties over a large portions of the state. In New Orleans the temperature fell to 52 degrees. In northern Louisiana close to freezing point was reached. The effect is expected to be a large addition to the number of towns and parishes would have ordered the removal of quartines. With the approach of the wave more parishes yesterday raised the bars, among them Assumption and Natchitoches. Vicksburg has ordered the lifting of restrictions and it is not improbable that her example will be followed by many points in Mississippi. Dr. Corput is in St. Mary and is working in the interest of the lifting of quarantines in that section of the state. The fever situation in both the city and state continues to make rapid progress.

Only one death occurred all over Louisiana yesterday, and the number of cases under treatment in the city has now fallen within the hundred mark.

It is possible that that the sudden change of weather may result in further deaths, of which there have been none in New Orleans during the last three days, but generally the cases now existing are of the lightest character.

President Souchon, of the state board of health, has taken occasion to address letters to Dr. White and Dr. Corput expressing on behalf of the board sincere appreciation of the service they have rendered in assisting to eradicate the fever.

There has been such rapid diminution of the cases under treatment at the Emergency hospital that it is not improbable that that institution will be finally closed tomorrow. There were eight dicharges yesterday and only six patients remain. Among the discharges were the five members of the Barfington family whose sad plight was brought to public attention by the death of the head of the family. The Kenner hospital has been closed.

Only one new case of fever was reported at Patterson yesterday, and the situation is so much better there that all but one of the nurses that were sent to that point are to return home.

There is a rapid improvement of the situation along the gulf coast and gulf port has ordered the closing of her hospital. It is likely that communication between New Orleans and the coast will be opened next week.

The embargo against bananas, it is announced, will be lifted on November 1. That means that screened cars will no longer be necessary, and that fruit shipments will be handled in the usual way. Information at hand is to the effect that all the fruit vessels which left New Orleans will return here.

Further advices today show that the temperature in portions of Louisiana during the night and early today left the freezing point. Minden, in the northern section, reported 30 degrees. There was frost at various points although the prevalence of high winds prevented it at other points.

Lake Charles, which stopped all the cars at the beginning of the fever and locked herself up until frost, was met by a cold wave, and reports from there say that the quarantine will probably be lifted. The effect of the frosts will besides further wiping out fever infection in the country will increase the crowds who will come to the president's reception.

It was stated confidentially today that by the end of next week every parish

now in the employ of the Marine hospital service will be given an honorable discharge and that the service would wind up its campaign, turning over the remaining work to the city and state boards of health.

Up to noon today there were two new cases of yellow fever and but no deaths.

Alabama Cities Raise Quarantines.

Nashville, Tenn., Oct 23.—The county and city quarantine of both Decatur and New Decatur, Ala, will be lifted at 6 o'clock p. m. today.

REJECTED DEATH CERTIFICATE.

Coroner of New York Refuses to Receive Physician's Word.

New York, Oct. 23.—Rejection of the death certificate of Miss Susan Sanders a member of a prominent southern family has led to an official investigation by the coroner, says today's Herald.

Miss Saunders died on Oct. 21 from burns received in the house of Dr. M. Belle Brown, a woman physician, on West Fiftieth street. Dr. Brown made out a certificate that Miss Saunders had died from pulmonary oedema and burns. The department of health promptly rejected the certificate on the ground that it was insufficient. Dr. Brown and her servants will be subpoenaed by the coroner to tell the manner of Mishs Saunder's death

Miss Saunders was 39 years old. Her home had for the last five years been a furnished room in the house of Dr. Brown. She was standing in front of a gas stove on Oct. 7, according to the best information obtainable, when a gust of wind from an open window blew a gas flame against the bottom of her gown. She was instantly in flames, and before the servants could do anything to aid her, was fatally burned. She died at a hospital of which Dr. Brown is dean on Oct. 12.

CELEBRATE NELSON'S VICTORY.

Great Britain Pays Honor to Her Greatest Naval Hero.

London, Oct. 23.—In every part of the British empire today and wherever a British man-of-war floats, the one hundredth anniversary of Nelson's victory over the combined fleets of France and Spain off Cape Trafalgar is being celebrated. On all the ships of the navy at a given hour flags were dipped while the bands played the dead march. Nelson's old flagship, the Victory, still lying in Portsmouth harbor was decked from stem to stern with bunting and thousands of electric lights were strung everywhere for the night illumination of the old battleship.

It was proposed to illuminate the Nelson monument on Trafalgar square here but fearing a tremendous crush of people with the accompanying accidents, the authorities forbade it.

In London the day's celebration began with the hoisting of the national flags on the Nelson column. Immense crowds assembled and when Nelson's famous signal "England expects this day that every man shall do his duty," was unfuried, a mighty cheer went up.

Pilgrimage to Pike's Grave.

Wasaington, Oct 23.—The supreme council for the southern jurisdiction Scottish Rite Masons met in Consistorial session this morning, hearing reports from the committee on finance, and library. The subject of the status of the army and navy was considered in executive sessions, but it was thought advisable to continue existing conditions. At 2 o'clock the members of the supreme council, its deputies and legatees made its biennial pilgrimage to the grave of Albert Pike, Scottish Masonry's most illustrious patron. Appropriate ceremonies were held.

Fireman Killed in Wreck.

Knoxville, Tenn., Oct. 23—A work train was wrecked on the Louisville and Nashville railroad near Duff, 18 miles north of Knoxville, at 9 o'clock this morning. Fireman Walker, of LaFollette, Tenn., was killed. Engineer Reider was injured, one rib being broken. George Gordon, a civil engineer, and front Brakerman Cornell are missing, and are thought to have been killed and buried under the debris. All are white men. The cause of the wreck is unknown. The locomotive was ruined.

IMPERATIVE NEED OF LABOR.

Lumbermen in Quandary Over Scarcity of Mill Hands.

Montgomery, Ala., Oct. 23.—Local lumber dealers are in the "hole," so to speak, about labor. It has become almost impossible to get men to take care of the mills and there are orders enough on every mill man's books in the territory to keep him running full time for several weeks. What is to be done is a question. The mills at Maplesville have put in Italians and they are giving satisfaction. It is very likely that others will do the same thing.

The officers of the Florida Lumber company, with headquarters in Chicago, have decided to make a try for some kind of imported labor, probably Italian, for the reason that they can not get men to do the work. This company is known as the hardwood combination and has big mills all over the south, having acquired recently a tract of immense proportions in Louisiana.

An instance of the troubles about labor is found in the case of a cooperage plant here. It has the machinery for one hundred men and cannot keep over forty. Another showing is the demand for convicts. Every day the state department has applications for men and they know that they will have to pay far more than $1 a day if they get them.

Cotton Receipts Heavy at Columbus.

Columbus, Ga., Oct. 23 The cotton crop in this section, although short, opened so early and was gathered with such rapidity, that the receipts of the Columbus warehouses are even to this date slightly in excess of last year's. The warehouses have received 32,350 bales of cotton, against 31,119 bales up to this time last year. Inasmuch as the crop in this section has been nearly all picked, there being practically no top crop, it is expected that within a short time there will be a great slump, ing in the receipts. Columbus warehouse men do not expect over 50,000 bales of cotton this year, although last year the receipts amounted to 75,000 bales. The local market is now 9¾ cents, against 9⅝ and 9½ cents this time last year, and 9⅞ cents on the corresponding date of 1903.

Georgia W. C. T. U. Elects Officers.

Americus, Ga., Oct. 23.—The eGorgia Women's Christian Temperance Union closed tonight the twenty-third annual session of the great organization, and tomorrow the many visitors leave for their homes with happiest recollections of the days in Americus. At the morning session the annual election of officers resulted as follows: President, Mrs. Mary Harris Armour, of Eastman, Ga.; honorary president, Mrs. Jennie Hatt Sibley, of Union Point; vice president, Mrs. Thomas E. Patterson, of Griffin; recording secretary, Mrs. Robert V Hardaman, of Macon; assistant recorder, Miss Theresa Griffin, of Columbus; corresponding secretary, Mrs Milton H. Edwards, of Eastman; treasurer, Mrs. C. H. Smith, of Ellaville, Ga.

Well Known River Pilot Dead.

Louisville, Oct. 23.—Captain Benjamin J. Holycroft, well known as a pilot by river men of the last generation, died yesterday at his home sixty miles below Louisville. He originated the Louisville and Evansville packet line and was interested in other river enterprises. He served as a pilot on the Mississippi river transport fleet during the civil war and had the distinction of piloting a river steamer from New Orleans along the gulf coast to Mobile, the first to reach that port after the forts in Mobile Bay, held by the confederates were destroyed by Admiral Farragut.

Fifteen Railroads Sued

Austin, Tex., Oct. 23.—Acting for himself and in the name of the state, District Attorney Warren W. Moore, of the fifty-third district court, today filed suit against fifteen railroads of Texas for sumes ranging from $1,000 to $25,000. These suits are brought in the nature of a penalty for failure to pay one per cent tax on the gross earnings as provided for in the Love tax bill, which the roads are now fighting and which is on an appeal to the higher courts, the state having won out in the trial court.

SERIOUS TROUBLE IS EXPECTED.

Killing of Cuban Arouses the People of Cienfuegos to High Pitch.

New York, Oct. 23.—Authorities here have been officially notified that there is frave danger of serious troubles in Cienfuegos growing out of the killing of Enrique Villuendas, says a cable dispatch to the Herald from Havana. The feeling against the administration grows more bitter as the taking of testimony proresses. Senator Alfredo Hayas and representative Florencio Villuendas yesterday called on the secretary of the government, Secretary Freyrie Andrade, to ask him to take steps for the protection of the attorneys in the Villuendas case, and particularly of Senor Manuel Secades, counsel for Villuendas.

The family of Senor Secades, who has just declined a nomination for congress has been repeatedly threatened with death. Senor Freyrie Andrade said he would give special orders to the rural guards to protect Senor Secades.

It is openly charged by the Liberal press that the presiding judge has denied every motion made by Senor Secades, including those described as the "most rudimentary and logical."

Insurgents to Kill Moros.

Manila, Oct. 23.—The insurgents of the Cotabalo valley, island of Mindanao, now threatens extensive operations in an endeavor to capture and kill all the Moros who are friendly to the government. It was announced from Manila Oct. 15 that Chief Alim with his followers in the island of Mindanao had taken the aggressive and was killing many Moros friendly to the government. Ali informed the people who assisted the troops to effect his capture, that he is now preparing to meet and kill them. Provisional companies of troops were then taking the field for a vigorous campaign, aided by friendly natives.

Italian Robbed of $3,000.

Lancaster, Pa., Oct. 23.—An Italian was held up by two highwaymen near Herrville today and robbed of $3,000. The Italian is the representative of an Italian bank of Philadelphia, and comes here once a month to get money for deposit of men employed on the Pennsylvania Railroad company's new line. Yesterday was pay day, and the sum given him for deposit was about $3,000. While driving to the railway station at Herrville today accompanied by a foreer, he was held up by two men armed with rifles and relieved of the money.

No Further Increase in Navy.

Berlin, Oct. 23—The German government, the Associated Press is informed, do not propose to the reichstag an increase in the navy beyond the additions previously determined upon. These were six large cruisers and thirty-five torpedo boats. Recent incidents in German-British relations have not, therefore, influenced the government's immediate naval policy except that usually heavy outlays will be asked for the equipment of naval stations, new docks, etc. These expenditures are all that Germany can conveniently afford. An imperial loan will be necessary to balance the budget of 1906.

Not Ready for Statehood.

Kansas City, Oct. 23—Congressman J. A. Tawney, of Minnesota, who passed through Kansas City last night enroute east at the head of the congressional party that has been studying the statehood question in the west, is quoted as saying that "conditions are not yet ripe for the admission of either Arizona or New Mexico and both of these territories together into the union. I believe that the wisest move for these two territories at this time would be to cease the agitation of the statehood question."

Big Mortgage Filed.

Columbus, Ga., Oct. 23.—A mortgage from the Birmingham, Columbus and St. Andrew's Railway company to the Central Trust company, of New York, as trustee, was filed today in the office of the clerk of the Muscogee superior court. The mortgage is for $1,500,000, and is to secure a bond issue. It has already been filed in various Alabama counties through which the road will pass.

DETECTIVES RETURN WITH EXPRESS CLERK

Man Who Stole $101,000 Landed In Pittsburg Jail.

WAS PUT THROUGH SWEAT BOX

Prisoner Seems Downcast and Depressed—He Did Not Reveal Anything to Officers—$10,000 More of Missing Money is Recovered.

Pitsburg, Oct. 23.—Edward G. Cunliffe, who took $101,000 from the Adams Express company and who was captured Thursday at Bridgeport, Conn., is a thoroughly exhausted and fatigued person to day. Upon his arrival from the east last evening at 8 o'clock He was immediately taken to the local office of Pinkerton detective agency where he was put through a process of "sweating" by the officials that lasted until 4:30 o'clock this morning. Whether it was productive and disclosed the whereabouts of the remaining $101,000 could not be learned. Cunliffe was lodged in a cell at the central police station at 5 o'clock where he slept for some time.

Cunliffe said he was tired out and expressed a willingness for quarters in the county jail where he was told the accommodations were more comfortable. He will be committed to that place today. It was reported that Cunliffe had been cruelly treated during the examination last night and today. A Pittsburg newspaper man, who accompanied the party from Bridgeport stated that enroute to the city authorities did everything possible for the prisoner's comfort. During the examination last night he was also treated with consideration.

Notwithstanding the severe examination given Cunliffe by the officers, it is said no additional admissions were secured from him. He is unusually stubborn and seems to feel that he has already talked too much for his own good. The prisoner was exceedingly aggravated when he was told nearly $10,000 more of the money was found wrapped as a laundry package in Bridgeport.

Rumors of ill treatment, said to have been accorded Cunliffe during the "third degree" system is that of eating food before a hungry pistoner.

French Minister Marries Widow.

Paris, Oct. 23.—M. Clementel, minister of the colonies and Mrs. Rigby Knowles, widow of an English publicist were married today at the town hall of Neuilly. Premier Rouvier acted as chief witness for the groom and Admiral Fornier for the bride. A brilliant assemblage of cabinet ministers, army and navy officers and members of the diplomatic corps witnessed the ceremony.

Man Confesses to Murder.

Cripple Creek, Colo., Oct. 23—Geo. Pickens yesterday confessed to Sheriff Bell that he was guilty of the murder of P. E. Walsh, at Leadville, 12 years ago. He said he made the confession in order to save an innocent man who had been arrested in Iowa for the crime. The Leadville authorities have been communicated with and in the meantime Pickens is in jail.

Killed by a Live Wire.

Chicago, Oct. 23.—A dispatch to the Tribune from Kankakee, Ill., says that Joseph Turpis, of St. Louis, was instantly killed at Chatsworth yesterday by coming in contact with an electric wire while chasing his hat, which had been blown off his head by the wind. William Meister, in attempting to drag the man's body from the wire, met a similar fate.

Attorney is Found Guilty.

Spokane, Wash., Oct. 23.—James Hopkins, a pioneer attorney of this city was found guilty in the federal court here yesterday on seven counts for the returning of false affidavits in applications for old soldiers' pensions. On each county the penalty may be $1,000 fine and from one to three years in the penitentiary.

MR. STUCKEY ON RAILROAD MATTERS

First Vice-President G. & G. Has Confidence in Extension.

WILL OPEN A FINE COUNTRY

The Extension Means a Big Thing in the Development of That Section of Florida, Where the Land is Fertile and Timber Grows Abundantly.

Among the prominent visitors to this city within the past day or two was A. P. Stuckey of Ocala, first vice-president of the Gainesville & Gulf Railway, who came to consult with other officers in railroad matters—at least matters concerning the Gainesville & Gulf.

It will be remembered that several weeks ago a survey of the territory from Fairfield to points south to Tampa was ordered by the new management of the Gainesville & Gulf, with a view to pushing the road as rapidly as possible to its southern terminus. It was estimated that this survey would be completed the entire distance in twenty days, but there seems to have been some hitch or misunderstanding, as the surveying corps has just reached Ehren, a considerable distance from the objective point. They are expected, however, to complete this survey after a while.

"We still have confidence in the future of the Gainesville & Gulf and the territory which the extension embraces," remarked Mr. Stuckey, who was among the leading promoters of the project. "We know that the extension of the Gainesville & Gulf will open one of the finest and most fertile sections in Florida, to say nothing of the wonderful development in naval stores and lumber, and we are perfectly satisfied with the prospects."

Thirty miles of sixty-pound steel rail are expected to arrive at any time. On account of the delay in pushing the survey the work of cutting right-of-way has not yet begun, but a force of workmen will be employed in a short time. By the time this iron has been received it is expected that the roadbed will be in position for the laying track.

THE ODD FELLOWS' HOME.

The National Odd Fellows' Sanitarium to Open November 1st.

Arrangements are being perfected for the opening of the National Odd Fellows' Sanitarium of Florida, in this city, on November 1st, for the reception of the members of this noble order from all portions of the United States and Canada, who come here in search for the health for which Florida, and especially the city of Gainesville, is noted.

To those who are not familiar with this noble institution and its object, we will state that it is a State institution where the members of the order, rich or poor, can come and have a comfortable home at as moderate a price as possible.

Mrs. F. B. Hoover of Illinois, a caterer of ample experience, has been secured and people from the North will find the culinary department a feature to their liking this winter.

The hospital department will be in charge of Miss May Lee, a trained nurse of Chattanooga, Tenn., and this branch will be maintained up to its former high standard.

There is no finer or more convenient place for the invalid to recuperate at than this beautiful spot, and with the health of Gainesville and the climate of Florida, it is a haven for those who come South to spend the winter.

MELROSE MITES.

Business, School and Personal Items of Interest.

Melrose, Oct. 23.—At the recent quarterly conference held at Windsor all the officers of the Windsor M. E. Church were re-elected.

Prof. Rogers is expected to open the Melrose school on November 6. The school lot is being much improved by a substantial wire fence.

A very fine meteor was observed on Friday night about 8:30 o'clock. Its movement was from east to west.

Mr. Carnes of Vienna, Ga., is the guest of P. M. Yearwood.

J. Page of Aberdeen, N. C., has taken charge of the sawmill at Earleton belonging to the Melrose Manufacturing Company.

To Cure a Cold in One Day

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. Grove's signature is on each box. 25c.

PUBLIC OFFER

To All Persons in Gainesville Who Wish to Accept.

Are you thin? Do you require more flesh to be really well and strong?

To every such person in Gainesville we make the following offer: Commence at once a course of treatment with Vinol, our cod liver oil preparation, without oil, and if after you have taken what we consider enough to restore your normal weight, and it has not succeeded, we will pay for all the Vinol you have taken.

A prominent New York physician recently said: "I am convinced that the best way to gain good, solid, firm flesh is to take Vinol, for in it you get all the curative, flesh-making and strength-creating properties contained in that grand old remedy, cod liver oil, without the nauseating oil itself. It is delicious, and the weakest stomach can retain it. Thin people are usually weak and ailing, and Vinol is what they need."

Vinol acts first upon the stomach, creates an appetite for good, wholesome food, strengthens and tones up the digestive organs. Rich, red blood is sent coursing through every vein, firm flesh is created wherever it is needed, and emaciated figures, hollow cheeks and sunken eyes are soon a thing of they past.

Every thin person in Gainesville should try Vinol on our guarantee. W. M. Johnson, Druggist.

STOLE FOR MAN SHE LOVED.

Woman Cashier Took Employer's Cash for Her Lover.

New York, Oct. 23.—To supply money to a man with whom she was in love, May E. Goldeng, of Buffalo, cashier of the New York branch of Larkin company, of Buffalo, stated in a written confession in court that she had been stealing from her employers for over two years. Her confession admitted thefts to the amount of at least $2,000, but her manager, E. M. May, testified that he believed the amount stolen was about $8,000.

When arrested Miss Golding made an oral confession in which she said that she took the money to help her parents and a sick sister in Buffalo. In the new confesion which is sworn to, the girl says that she met a man on a street car crossing at the Brooklyn bride in 1903, and that she later fell in love with him. She says that several times a week since then she has given the man money in various sums, all stolen from her employers.

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by all druggists.

Georgia Murderer Captured.

Macon, Ga., Oct. 23.—Oscar Shiver, the negro slayer of Baggage Master T. J. Conrad, has been apprehended. Sheriff Graves, of Murray county, captured Shiver, after four years of diligent search. The officers located the negro near Spring Place, and Sheriff Robertson planned his capture. The negro is now behind the bars in Bibb county jail. The tragedy was enacted at the union station for years ago, when Shiver used a revolver, killing his employer.

Full of Tragic Meaning

Are these lines from J. H. Simmons of Casey, Ia., Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for consumption, coughs and colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At all druggists; guaranteed; 50c and $1.00. Trial bottle free.

Wine and Wills.

The Law Magazine and Review tells an old story of a Hamburg merchant who had five sons who were all ardent teetotalers. The merchant was contrary minded, and, to rescue the misguided young men from the error of their obstinate ways, he directed in his will that each of the five should on the day of the funeral drink a glass of wine to his memory in some public place, adding as a condition subsequent that if any of them should refuse to drink the enjoined glass his share of the inheritance should be forfeited and divided up among the more complaisant brothers, but if all should refuse the whole family property should go to charities.

No other testament so odd on the subject of wine is recalled except that of a total abstainer who left a fine wine cellar, a recent legacy to himself, to his heir, with directions that its contents should be poured untasted on the ground.

The Life Was In Him.

Daniel O'Connell once unraveled a queer plot in a will case. Witness after witness swore that they saw the document duly executed. At last a constantly reiterated expression caught the lawyer's attention. "The life was in him," over and over repeated. "By the virtue of your oath, was he alive?" he asked one witness. "By the virtue of my oath, the life was in him," he was answered. Then O'Connell turned to the man and very slowly and very solemnly said, "Now I call upon you, in the presence of your Maker, who will some day pass sentence upon you for this evidence, I solemnly ask you—and you answer at your peril—was not there a live fly in the dead man's mouth when his hand was placed upon the will?" Cornered and pale with fear, the witness confessed that this had actually happened.

Cures Winter Cough.

J. E. Gover, 101 North Main street, Ottawa, Kan., writes: "Every fall it has been my wife's trouble to catch a severe cold, and therefore to cough all winter long. Last fall I got her a bottle of Horehound Syrup. She used it and has been able to sleep soundly all night long. Whenever the cough troubles her, two or three doses stop the cough, and she is able to be up and well." 25c, 50c and $1. Sold by W. M. Johnson.

Does the Sun Set?

"It ill becomes any of us to criticise lapses in grammar," says an author, "when we all of us consent to and constantly make use of one such lapse ourselves. To speak of the 'setting sun' is wholly incorrect. You may set a book on a table or even set a son on a chair if he be big enough not to fall off, but what does the orb of day set, and where does it set? No, sir, queer as it may sound to ears grown accustomed to the universal form, the sun sits. If it sets anything why doesn't it raise something? If it shouldn't be the rising and the sitting sun it should be the raising and the setting sun. Think it over, and when you get it arranged to your satisfaction try to find out what you mean when you speak of a setting hen."—Philadelphia Record.

IN THE MAYOR'S COURT.

Four Offenders Stood Up for Municipal Prescription.

In the words of the typical Floridian, the mayor's court recently was "tolerably interesting," there being four victims before the municipal tribunal.

If there is any one thing in the world more tempting to the average darkey than a yellow-legged chicken, it is the irresistible sugar cane. These people are as happy during the cane season as a fly in a sugar barrel, if they have the price of imbibing in that delicious pastime of chewing cane.

James Helton had a stalk cane—the fine, sweet, juicy kind. He was seated on the top of an empty barrel enjoying his possession, when Thos. Green, with the complexion of a late fall pumpkin, approached him.

"Gimme piece er dat cane," demanded Green.

"I ain's gwine ter gib yer no cane," responded Helton.

"Gimme de jints," appealed the pumpkin-colored aggressor.

"Dere ain't gwine ter be no jints," replied the man on the barrel, "an' if yer fool wid me I'll gib yer de butt ober de hed."

"Yer can't do it, yer pesky, snuff-culled rascal," replied Green. But at the same time Helton did attempt to do it, so it is said, with the result that he was arrested for fighting, and was fined $2.50 and costs. For "butting in" Green had to pay the freight in the sum of $1 and costs.

James McIntyre, drunk, $2 50 and costs, and Ed Sparks, obstructing the streets with a vehicle, let off with the costs, were the other cases disposed of.

STOPS SHORT WHILE IN MACON.

President Roosevelt Delivers Five-Minute Speech from Train.

Macon, Ga., Oct. 23.—The president's train reached Macon Friday night at 10 o'clock over the Southern railway. Three thousand people were assembled at the station. His appearance at the rear of the train was greeted with great applause. He spoke for five minutes and said that he had begun today in Georgia with a visit to his mother's old home at Roswell, and then proceeded to Atlanta, a typical city of the south, and had been welcomed everywhere. He said: "For the last three days I have been greeted by the people of the old confederate states and I have found among them the same valor, devotion and loyalty to their country that they showed to their own flag from 1861 to 1865. I have found them all united." He referred to Grant and Lee and said that there was no rivalry now except in the interest of common country. He spoke of Georgia as "the wonderful and beautiful state" and said that he hoped the day would soon come when he could revisit Macon and "see you all again."

Makes Homely Women Pretty.

No woman, no matter how regular her features may be, can be called pretty, if her complexion is bad. Orino Laxative Fruit Syrup aids digestion and clears sallow blotched complexions by stimulating the liver and bowels. Orino Laxative Fruit Syrup does not nauseate or gripe, and is mild and pleasant to take. Remember the name Orino and refuse to accept any substitute. J. W. McCollum & Co

Passenger Train Wrecked.

Fort Scott, Kans., Oct. 23.—Westbound Missouri Pacific passenger train No. 40, carrying cars from Kansas City and St. Louis was wrecked 5 miles west of Ft. Scott, early today, the result of a broken rail. The baggage and express cars, mail car and smoking car, chair car and a sleeper left the track and turned over. Fully 30 persons were more or less injured but no one was killed. Only three or four of the injured were seriously injured.

Prison Association in Session.

Lincoln, Neb., Oct. 23—The sessions of the National Prison association will begin in this city tonight with addresses of welcome. Response will be by General R. Brinkerhoff, of Ohio. Tomorrow evening there will be a number of popular addresses on prison reform including one by James A. Leonard, of Ohio.

Rice Granneries Burned.

Pekin, Oct. 23—Nothwithstanding its reform policy, China continues to exhibit evidence of official corruption against the imperial granneries accepting thousands of banner men and government dependents at Pekin, has been burned down just before the time for the winter distribution of rice. Superintendents Kui and Lui have appealed to the throne that they be punished because of their inability to detect the peculations of subordinates.

Prospector Dies of Starvation.

Chicago, Oct. 23.—A dispatch to the Tribune from Santa Fe, N. M., says: After discovering rich deposits of native copper, following weeks of prospecting, William Didican, of Schenectady, N. Y., was found dead from starvation yesterday on the plains west of White Oaks. For a mile around where Didican's body was found were his tracks, showing the days he had traveled in a circle having lost his way returning from the mine.

Want Folk to Aid Jerome.

New York, Oct. 23.—William J. Hornblower has signed and sent the following call to Governor Folk, of Missouri: "The undersigned citizens of New York, without regard to party, invite and urge you for the sake of good government and in order to keep in office a fearless and faithful public servant, to come on and speak for Jerome."

Frost in Many Places.

Louisville, Oct. 23.—Light frosts occurred this morning as far south at northern Texas, northern Louisiana and central Mississippi and eastward to North Carolina. The temperature fell decidedly near the gulf and eastward from the Alleghenies, and slightly in the Ohio valley and Tennessee.

The Bengal Grosbeak.

The Bengal grosbeak builds a nest shaped like a bottle and always selects for its support a long, lithe limb overhanging a stream of water. The entrance is beneath, and, from the situation and peculiar shape, it is absolutely impossible for a snake to gain admission to the nest. One naturalist records seeing fourteen attempts on the part of serpents to get at the nest, but the hungry snakes always fell off into the water.

Changed Position.

Fielding—How time changes a man! There's Battser. A dozen years ago he was so engrossed with the teams on the diamond that he cared for nothing else. Now all his thoughts are centered in his family. You know he has a wife and eight children. Rhuna—Well, that isn't so much of a change. He has simply transferred his interest to his home nine.—Judge.

Working the Old Man.

"Do you think her father will give his consent?

"Sure! I've been playing poker with him once a week for the last six months and letting him win. He'll feel like he has been offered a pension when I ask him."—Houston Post.

Why He Sees Double.

The reason that a man sees double who has gazed too long on the wine when it is red is that the nerve centers are changed by the action of the alcohol. There is a want of harmony in the action of the muscles which move the eyeballs. Consequently instead of both eyes being focused simultaneously on an object one eye receives an impression independently of the other. The two impressions are communicated to the brain, and the object is therefore seen twice. The inflamed condition and loss of energy in the brain centers from overdoses of alcohol also account for the staggering gait of an intoxicated man.

How Icelanders Tie Horses.

The Icelanders have a strange but effective plan for preventing horses straying away from any particular spot. If two gentlemen happen to be riding without attendants and wish to leave their horses for any reason they tie the head of one horse to the tail of the former. In this state it is utterly impossible for the horses to move on, either backward or forward. If disposed to move at all it will be only in a circle, and even then there must be mutual agreement to turn their heads the same way.

The Money Lenders.

There are many examples of Lord Palmerston's ready wit in Sir M. E. Grant Duff's book, "Notes From a Diary." In a debate about the Jews an orator rather bored the house by enumerating many of the things which the English owed to Hebrew initiative. Lord Palmerston in reply gave the discussion a sprightlier turn. "I quite agree with the honorable gentleman," he remarked. "Many of us owe a great deal to the Jews."

Priests and Beards.

The beardless priest is only a matter of custom, there being no edict upon the subject. All of the popes from Adrian VI. to Innocent XII. and all the cardinals and other church clerics during the same period were bearded dignitaries. Ignatius Loyola, St. Francis Xavier, Francis de Sales, Vincent de Paul and the Cardinals Bellarmine and Richelieu all wore full beards.

An Awful Finish.

Hen—What makes you look so glum? Rooster—I've just been chased out of the wood shed with a feather duster. It got so close to me that I recognized the tails of three of my family.—Detroit Free Press.

Keep Your Head Clear

And your stomach free from Indigestion if you would be happy with your family and your fellow man.

The surest thing on earth to get a man's system "out of whack" is heavy, soggy bread, which is caused by several reasons: First, the material may not be good; second, the cooking may be poor. The best flour in the world will make the heaviest bread if improperly mixed or cooked. We USE THE BEST FLOUR and our "long suit" is knowing how to mix and bake it. Our bread does not cost any more than home-made and in many instances it is so much more palatable.

THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for $5 a year; $2.50 six months; $1.25 three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion.

Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for $1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

The Florida Fruit and Truck Grower, published at Ocala by L. J. Brumby, has made its October appearance with 24 pages of interesting reading for every farmer in the State. It is an excellent publication.

The Knoxville (Tenn.) Sentinel has issued its sixth annual fall industrial edition, and it shows very plainly that Knoxville is a great industrial and mercantile center. The edition is filled with the favors of big advertisers, an indication of business life.

The grand jury of Polk county favors the opening of court with prayer, and at the same time urges the building of more cells to incarcerate human beings, and the purchase of bloodhounds to capture them. But they will not forgive those who trespass against them.

The Florida Advocate, published at Wauchula, has issued a very handsome "Homeseeker Edition." It is neatly printed, illustrated with fine half-tone cuts and is a credit to the town and the promoters. The edition is for free distribution and will prove of great benefit to that section.

Pius X has little use for soldiery. He will shortly, it is said, disband the vatican guards. This example may have some effect on the real military systems of the world, since the papacy has clung persistently for many ages to a show of armed force, and has thus furnished an excuse to secular powers.

The Industrial Edition of The Sun, to be issued November 16th, will be the only medium through which Gainesville and Alachua county will be presented to the people the coming fall and winter. It will be made as fine as the printer's art can make it, and the articles will be written by Mr. John O. LaFontisee and The Sun staff. If you have a business that will stand publicity an advertisement in this issue will pay you.

The reason why Tampa has three daily papers is because the people of that progressive—you might go farther and say hustling—city demand it. We are Democratic enough to believe that supply and demand are the only true regulators of business, and where there are three as healthy looking dailies as are published in Tampa, it is quite plain that there is a healthy business. The business men of Tampa, as well as the people in general, have faith in their city, and faith is the rock on which they have built.

Cunliffe, the substitute cashier in the Pittsburg office of the Adams Express Co. who stole $101,000 of the company's money, said when arrested: "What can you expect of a married man handling hundreds of thousands of dollars on a salary of $95 a month? Once when I had $250,000 in cash in my possession, I was sorely tempted to take it." It is quite certain he would have stolen the money if he had been paid twice or three times as much salary, as an honest man would not think of stealing, no matter if he was not paid for his work. However, men in positions of trust ought to be paid decent salaries.

THE USE OF WATER POWER TO DEVELOP ELECTRICITY.

The locality that is so situated that water power can be used to develop electric power is indeed favored. Where water is used the best results are obtained and in those sections of the country the power of electricity is furnished cheaper, and a much more reliable result is obtained. But the destruction of forests has a strong tendency to dry up the streams and ruin the water power.

The slaughter of the forests that act as conservators to the water supply injure the ideal conditions that help to promote electric power, and the question of the hour is in regard to forest protection. While the destruction of the fine timber lands and the manufacture of lumber may denote progress and industry, it also has a tendency to destroy the forces that supply the machinery that furnishes the more convenient electrical power. Rivers are being dried up for lack of water from the creeks that are destroyed, and the resort to coal and wood for fuel to promote electrical plants will soon cause the business world to look elsewhere for something to turn the wheels of industry.

EDUCATIONAL ASSOCIATION.

Every teacher in Florida will be interested in the following announcement of the Southern Educational Association:

To the Teachers and School Officers of Florida:

It gives me pleasure to announce that the next meeting of the Southern Educational Association will be held jointly with the Association of Southern Colleges in Nashville, Tenn., November 22-25, 1905.

On account of the meeting being a joint one, the program will be doubly interesting, and those of you who had the pleasure of meeting Dr. Charles D. McIver at Jacksonville last winter know we have an able presiding officer.

The local committees at Nashville are making elaborate preparations for entertaining the associations. Hotel rates will be reasonable, and hotel headquarters and minor details will be published later.

All railroad companies on November 20th and 21st will sell round-trip tickets for one first-class fare, plus 25 cents, from all points to Nashville, Tenn. Fare for round-trip from Jacksonville will be $16 25.

The Official Route.

Southern Railway from Jacksonville to Chattanooga, and Nashville, Chattanooga & St. Louis from Chattanooga to Nashville. The Florida delegation will leave Jacksonville Monday, November 20, at 7:45 p. m., arriving at Chattanooga at 9:45 a. m., allowing four hours' stop-over, with ample time to visit Lookout Mountain, Chickamauga Park, etc. Leave Chattanooga at 1:25 p. m., arriving at Nashville at 6:55 p. m. The Southern Railway dining cars will serve breakfast before reaching Chattanooga.

All persons desiring to attend this meeting are most cordially invited to join the delegation at Jacksonville.

Superintendent Holloway and other prominent Florida educators will take part in the interesting program now being prepared.

Information relative to reservation of berths, etc., will be furnished upon application to J. C. Lusk, district passenger agent of the Southern Railway, 108 West Bay street, Jacksonville, or the undersigned.

Any further information will be most cheerfully furnished by

CLEM HAMPTON,
State Director and Manager of S. E. A. for Florida, State Department of Education, Tallahassee, Fla.

THE STATE PRESS.

J. Emmet Wolfe, a prominent politician of Pensacola, was appointed as private secretary to Governor Broward last Monday. Of course he accepted the appointment. Doubtless we've heard the last of J. Emmet.—Gadsden County Times.

Elmer McCreary of Gainesville, son of Hon. H. H. McCreary, proprietor of The Gainesville Sun, was among the guests at the Aragon Hotel yesterday. He was a member of the reception committee for the President for the State at large.—Jacksonville Times-Union, 22nd.

The Lake City papers continue to raise their "puny arms of rebellion" over the loss of the University. They are going to carry the fight into the next Legislature, but we predict that body will withstand the shock. Poor Lake City! Not that she is really poor, but that she takes disappointment so badly.—Levy Times-Democrat.

Mr. L. J. Brumby has purchased a third interest in a daily newspaper in Jacksonville—The Daily Report—which makes a specialty of publishing the court doings. New features will be added to it from time to time, and it will be made an interesting and important publication. Mr. Brumby is a fine newspaper man, and while he will give the paper a good deal of his time, he will continue to reside in Ocala and conduct The Florida Fruit and Truck Grower, which is now considerably enlarged.—Ocala Banner.

Who He Was.

A traveler saw a woman take a man by the collar, yank him up the steps into a railroad car, jam him down into a seat, pile up a valise and two big brown baskets with loose covers and long handles at his feet and say:

"Now, sit there until I help Mary Jane on the car and don't move till I come back."

When the woman reached the door the traveler said to her:

"Is that man your husband?"

"Naw!" roared the woman. "He's my daughter's husband, and she hasn't spirit enough to say her soul is her own."

Rheumatism

Like Neuralgia, is now known to be a nervous disease. The kidneys become weak through lack of nerve energy, and fail to filter the uric acid from the blood; this acid attacks and burns the nerves and muscles, and consumes the oil in the joints, producing inflammation, fever, swelling—pain.

To cure Rheumatism, then, you must restore the kidney nerves and muscles, and neutralize the effect of the acid upon the joints and tissues with Dr. Miles' Restorative Nervine, a nerve medicine, which has made many cures of this painful disease. Nervine strengthens the kidney nerves and increases the circulation, and relief is assured.

"Before I took Dr. Miles' Nervine, I had been looking for a cure for Rheumatism for 25 years. The last time I was laid up for several months, could not get out of bed or set foot on the floor. I tried remedies to rub in, to drink, doctors' prescriptions, etc., but none of them had any effect. One day I read about Dr. Miles' Nervine and got a bottle. After the first dose I had a good night's rest, and after taking half a bottle the pains disappeared, and I went out and walked all around the town. In a week I went to work, and was perfectly cured, but continued to take the medicine for a time, to make sure the pains would not come back."
THOS. LONG,
213 N. Chatham St., Racine, Wis.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

BALLARD'S HOREHOUND SYRUP

PERMANENTLY CURES
CONSUMPTION, COUGHS, COLDS, BRONCHITIS ASTHMA, SORE THROAT, HOARSENESS WHOOPING COUGH AND CROUP

DO NOT DELAY

Until the drain on your system produces permanent disability. The human breathing machinery is a wonderful system of tubes and cells. To have good health it must be kept in good order. A COLD is considered of no importance, yet if it was known by it's proper name of "throat inflammation," or "congestion of the lungs," its dangerous character would be appreciated. When a cold makes its appearance use at once Ballard's Horehound Syrup which will speedily overcome it. WHOOPING COUGH and CROUP Require Prompt Action. SNOW LINIMENT applied to the throat and chest gives wonderful relief, while Ballard's Horehound Syrup will rapidly stop the violent paroxysms of coughing. IT IS THE ONLY COUGH REMEDY THAT WILL POSITIVELY CURE WHOOPING COUGH AND CROUP.

BEST FOR CHILDREN

Mrs. Maud Adams, Goldthwaite, Tex., writes:—"I have used Ballard's Horehound Syrup and find it the BEST medicine for croup, coughs and colds. My children use it and it is pleasant to take and quickly cures."

WOMEN'S NEGLECT

SUFFERING THE SURE PENALTY

Health Thus Lost Is Restored by Lydia E. Pinkham's Vegetable Compound.

How many women do you know who are perfectly well and strong? We hear every day the same story over and over again. "I do not feel well; I am so tired all the time!"

More than likely you speak the same words yourself, and no doubt you feel far from well. The cause may be easily traced to some derangement of the female organs which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, bearing-down pains, flatulency, nervousness, sleeplessness, leucorrhœa.

These symptoms are but warnings that there is danger ahead, and unless heeded a life of suffering or a serious operation is the inevitable result.

The never-failing remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound.

Miss Kate McDonald, of Woodbridge, N. J., writes:

Dear Mrs. Pinkham:

"I think that a woman naturally dislikes to make her troubles known to the public, but restored health has meant so much to me that I cannot help from telling mine for the sake of other suffering women.

"For a long time I suffered untold agony with a uterine trouble and irregularities, which made me a physical wreck, and no one thought I would recover, but Lydia E. Pinkham's Vegetable Compound has entirely cured me, and made me well and strong, and I feel it my duty to tell other suffering women what a splendid medicine it is."

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write to Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

NEWS TERSELY TOLD.

For the past six days Manila has been free from cholera. Fourteen cases and twelve deaths occurred in the provinces during the past 24 hours.

The trustees of Smith college at Northampton, Mass., voted last night to use a fund donated by John D. Rockefeller for the erection of an assembly hall and a dormitory.

Senator John Bierge, a prominent citizen and well known man of Bristol, Tenn., was killed yesterday while out driving with his horse, which ran away, throwing him from his carriage to the curb.

Announcement is made today that W. K. Savage, owner of Dan Patch, has bought Ed Patch, 2:08½, from Edgar Beeming, of Danville, Ind., for $5,000. He has proved the fastes of the get of Dan Patch.

The Rev. R. O. Russell, the Catholic chaplain at Ancon, has resigned and will leave Panama today for New York, on a special mission from Bishop Junguito to secure co-workers in the canal zone. He will confer with Cardinal Gibbons.

It is officially announced that the grand naval review will take place on Monday, Oct. 23. Great enthusiasm over the event prevails in Tokio and Yokohama. Seventy-five special trains will be run between the two cities on the day of the Japanese naval review.

As a result of the strike of the printers at the local plant of the General Electric company's plant at Schenectady, N. Y., which has been on a strike for five weeks, the company has decided to abandon its printing department and have its work done outside the works.

The initial performance of Frank L. Perley's musical comedy, "The Winning Girl," written by Charles W Doty, was seen in Binghamton, N. Y. last night and was well received. After a few one-night stands, the play was taken to St. Louis and Chicago for short runs.

How to Cure Corns and Bunions.

First, soak the corn or bunion in warm water to soften it; then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn a few days to protect it from the shoe. As a general liniment for sprains, bruises, lumbago and rheumatism, Pain Balm is unequaled. For sale by all druggists.

In the Time of Erasmus.

Then not only all the learned, but all the educated, were familiar with Latin. Whoever read, indeed, must read Latin, for there was little else to read. Theology, history, philosophy, all were in Latin. The national literatures were only in their cradles. Nearly a century after the time of Erasmus, Bacon deliberately buried his greater works in Latin in the hope of securing his fame, and even Milton chose Latin as the vehicle of some of the best of his early poetry and did not abandon it without hesitation.

To Erasmus it was everything—the language of his tongue as well as of his pen. He traveled everywhere, in Italy, France, England, Germany, but he certainly knew no English or German and apparently made his Latin carry him through wherever he went. And whatever difficulties of language he found with innkeepers and servants and officers of customs he found none among the clergy or the nobles, at whose houses his introductions made him everywhere welcome.—London Times.

Don't be Imposed Upon.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

Human Horns.

In the anatomical museum of the Edinburg university four horns are preserved which had grown upon human heads. One of these is about seven inches long, as thick as the little finger and crooked in shape. A label attached to it bears this inscription: "This horn was cut by Arthur Temple, chirurgeon, out of the head of Elizabeth Low, being three inches above the right ear, before witnesses, the 14th of May, 1671. It was a growing seven yeares. Her age is fifty yeares." The three other human horns also graced the heads of ladies.

In Sir Robert Sibbald's "History of Fife," a curious book published about the beginning of the eighteenth century, we read: "A person of quality, a lady of great age in this shire, had a horn growing out of her toe and put her from walking. It was cut off by Dr. H., and she was freed of pain and walked."

Insomnia and Indigestion Cured.

"Last year I had a very severe attack of indigestion. I could not sleep at night and suffered most excruciating pains for three hours after each meal. I was troubled this way for about three months, when I used Chamberlain's Stomach and Liver Tablets and received immediate relief," says John Dixon, Tullamore, Ontario, Canada. For sale by all druggists.

The Thrown.

THE REAL TEST

Of Herpicide Is in Giving It a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vigors may look nice and smell nice, but the point is—do they eradicate Dandruff and stop falling Hair?

No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use."

It is a delightful dressing, clear, pure and free from oil or grease.

OLD TIME MYSTERIES

SOME RIDDLES IN LIFE THAT HAVE NEVER BEEN SOLVED.

Lands and Peoples That Are Supposed to Have Disappeared—The Legend of the Lost Atlantis—The Ancient Pygmies of Tennessee.

The public appetite craves nothing so much as a riddle, a secret to guess, but nowadays every man's life is so bare, so exploited, and we live so much out of doors from the cradle to the grave that very few facts or fancies can be kept hidden. There were, however, certain mysteries which during the last century the American public pondered and worried over which are yet unsolved and, except by a few old people, are almost forgotten.

One of these, perhaps the oldest, is the question whether beneath the Atlantic not far from the Bahamas there is a sunken continent known to the Greeks as the lost Atlantis. It was still talked of familiarly in the first half of the last century. Seafaring men declared that when the water was calm and clear they had caught glimpses of ancient cities beneath, with their glittering roofs and spires, and that in certain conditions of the atmosphere the tolling of the bells could be distinctly heard. Treatises were written by learned professors to prove the probability of the legend, and other treatises, as learned and vehement, to flout and jeer at it as an idle fable.

Certain flotsam and jetsam, which was washed ashore after heavy storms on the coasts of Georgia and Florida—logs of strange woods unknown to this generation, coins, bits of carved marble and beaten brass—was ascribed to the long dead workmen of Atlantis.

The lost colony is now known only as the subject of an ancient fable, but years ago it was by most educated people believed to be an actual fact.

Another much discussed mystery then was what had become of the colony of civilized people who at the time of the settlement of the country lived on the western coast of Greenland.

That country is, as you will see by a glance at the map, shaped something like the half of an egg, cut lengthwise, the flat side upon the earth, the point to the south. The rounded center is a heap of impenetrable ice mountains. As the centuries go by enormous bodies of ice slip from it into the sea and, breaking off, drift slowly down along our coasts. These are the icebergs of the Atlantic ocean. Now, along the narrow slip of habitable land which edges Greenland on this side, tradition says, once dwelt a civilized people who, both in knowledge and the habits of life, were far in advance of the Laplanders.

They were well known to the early Danish navigators, who made frequent mention of them in their logs and reports. The question yet unanswered is, Where are they now? Tradition among the Laplanders reports that the whole colony two centuries ago emigrated in a body to the eastern coast of Greenland, attempting to cross the hitherto impenetrable masses of ice in the center. No tidings ever have come back from them. Some of the scientific men who accompanied the Hayes expedition made this question a matter of special study. They reported that a doubt could hardly exist that these people did once inhabit that part of the coast and that they now had utterly vanished. If they had been swept away by a pestilence their household belongings at least would be left to tell of them, but not a shard of pottery, not a single grave, remains to show that they ever lived. It was supposed by the Danish missionaries that they had perished in the ranges of ice mountains, but among the Laplanders there were traditions that they had safely reached the western coast and settled there, now forming a civilized community, wholly isolated from the rest of the world. One of Nansen's voyages was, in fact, directed to that coast in the hope of finding this colony. He was not able to reach the northern part of the coast, and the mystery is therefore yet unsolved.

Another problem which perplexed the last generation was the long extinct pygmy race which centuries ago undoubtedly inhabited the Tennessee mountains. Legends among the Indians told of such a tribe of dwarfs, who were supposed to be of more intelligence than the red men. But these legends were very hazy. A burying ground, however, actually was discovered in the early part of the last century in which all of the skeletons were of pygmy proportions. Some of them were carried away to college museums. But as far as I know no scientific inquiry has ever been directed to this question.

Another curious matter which caused much speculation in the early part of the last century was the fate of the colony of French emigres who fled to this country in the eighteenth century and took refuge in the northern part of Alabama. Like those Frenchmen who found safety in Delaware, they were for the most part of noble blood. Marquises and counts earned their living in Wilmington as dancing masters and even chefs, and their descendants live there still.

But the poor gentlefolk who went penniless to Alabama to escape the guillotine penetrated the wilderness and made up a colony of vine growers, farmers, etc. They worked helplessly awhile, starved and then melted away mysteriously. Whether they returned to ungrateful France or died in their exile nobody knows. It was a romantic, tragical question which much interested the last generation and is now forgotten. But it is still unanswered.—New York Herald.

S.S.S. OUR RECORD

40 YEARS of CURES

With medicines as with other things, the surest test of worth is the length of time they have the confidence of the people. The efficacy of S. S. S. has been thoroughly proven by experience, and so successful has it been that today it is the best known and most widely used blood remedy in the world. For diseases such as Rheumatism, Catarrh, Scrofula, Skin Diseases, Sores and Ulcers, Contagious Blood Poison, and other troubles due to an impure and poisoned condition of the blood, no remedy acts so promptly and thoroughly as does S. S. S., and thousands throughout the country, cured of such diseases, are daily recommending it to others similarly afflicted. ***ITS FORTY YEARS OF EXISTENCE HAVE BEEN FORTY YEARS OF CURES.*** S. S. S. is a blood purifier of the highest order, containing properties necessary to cure blood troubles of every character, and which make it the greatest of all tonics. It goes into the blood and drives out any and all impurities, and makes this stream of life strong and healthy, and when this is done disease cannot remain. Being made entirely from roots, herbs and barks, chosen for their healing, purifying and building-up properties, it does not injure any of the delicate organs or tissues of the body as do those medicines which contain Potash, Mercury, Arsenic or other harmful minerals, but cures safely as well as permanently. S. S. S. reaches deep-seated and inherited cases on which the ordinary Sarsaparillas and tonics have no effect. It is no experiment to use S. S. S.; it is a remedy with a record; it has proven its worth and ability by its forty years of cures. If you need a blood remedy begin the use of S. S. S.; write us about your case and let our physicians advise you and send book on the blood; no charge for either.

Saratoga a Freak of Death Valley.

Saratoga springs is one of the freaks of Death valley and has probably caused more profanity than anything else in the region. The waters are as clear as crystal, and they bubble up from a deep, sandy basin like a well-spring of joy. But they are strongly impregnated with sulphur and other minerals, are tepid in temperature and act instantly like an emetic upon any one who drinks them.

He Was No Settler.

"I suppose that old chap with the long white whiskers over there is one of your old settlers, isn't he?" said the grocery drummer.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." J. W. McCollum & Co.

Thousands Have Kidney Trouble and Never Suspect It.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

New Cure for Cancer.

All surface cancers are now known to be curable by Bucklen's Arnica Salve. Jas. Walters of Duffield, Va., writes: "I had a cancer on my lip for years that seemed incurable, till Bucklen's Arnica Salve healed it and now it is perfectly well." Guaranteed cure for cuts and burns. 25c at all drug stores.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by all druggists.

A CREEPY PLACE.

Some of the Pests and Discomforts of Life in Bulawayo.

"Life in Bulawayo during the wet season is certainly not all pleasure," writes a resident of that African town. "The rain descends as if a river, having lost its way among the clouds, was hurriedly trying to return to earth once more. The streets are transformed into lakes, and the damp, moist heat makes everything inside the house unpleasantly moist and clammy. But, disagreeable as the rainy season may be, the cold that precedes it in September is almost worse. Dust storms are frequent. Trees and shrubs become brown and shriveled, and the wind blows with cutting force across the veldt. It is then, too, that the snakes are more in evidence than at any other time of the year. Half torpid, stupid with the cold, you come upon them coiled up in unexpected places, as once, when entering my room, I found one wound round the leg of my dressing table. Another evening we were disturbed by a persistent tapping against the window, as if some one were trying to attract our attention. On rising to investigate we found it was a snake that, attracted by the light and warmth, was endeavoring to make its way in through the glass.

"White ants are another terrible pest, or, rather, they would be did they not enter so literally into every circumstance of everyday life that they end by being taken as a matter of course. For instance, after an absence of a few hours you return to find half the matting on the floor devoured, or, your boy, having incautiously left your coat hanging in the sun, the lining affords a speedy meal to these voracious little insects. In fact, you never know what damage may not be revealed at any moment, and this uncertainty extends even to the garden, where your rose trees have to be grown in tubs half filled with broken glass and perched on bricks soaked in paraffin.

"I found that the tarantulas and scorpions were everyday evils, to be endured with what philosophy one could muster. A tarantula the size of a small crab walking across the floor is not a pleasant object. Our house boy delighted in catching them to make them fight with the scorpions, and we had ocular demonstration of the fact, long believed to be only a traveler's tale, that on being worsted a scorpion will commit suicide by bending its tail over its back and stinging itself behind the neck rather than be eaten by its opponent."

Astonishing Incident.

It was, to all her friends, an astonishing incident that Mrs. I. B. Hunt of Lime Ridge, Wis., was cured of her dreadful sickness. "Doctors," she writes, "had given me up; friends were ready to bid me the last farewell; clouds of despair darkened my horizon, and I was a wreck on the shores of despondency, when I began to take Electric Bitters for my frightful stomach and liver complaint. To the astonishment of all, I was benefited at once and am now completely and miraculously restored to health. At all drug stores; price 50c; guaranteed.

Old English Houses.

Many old houses throughout England have long been famous for the quaint and humorous inscriptions painted or carved on one of their exterior walls. On the portico of Arley Hall, the seat of the Warburton family, there is inscribed this welcome:

This gate is free to all men good and true;
Right welcome thou, if worthy to pass through.

And at Loseley House, Surrey, there is a Latin inscription over the doorway to this effect, "I am shut to an enemy, but am always open to a friend." Above the door of a house at Salvington, Sussex, in which Selden was born, there is a Latin couplet much to the same import, and Montacute House, Somerset, has these two lines carved:

Through this wide opening gate
None come too early, none return too late.

Under a variety of forms we find the same maxim on different houses, and at Ferray Hall, in the parish of Almondbury, over one of the doorways are the words, "An honest man may enter," and on the reverse side facing the spectator when leaving the premises, "A cheat may be off."—London Standard.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." Sold by W. [illegible]

READ THIS.

MOBILE, ALA., Dec. 24, 1899.

Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: Having tried different doctors and their remedies for several years for back and kidney troubles, I found nothing successful until taking "The Texas Wonder," Hall's Great Discovery, and, being rapidly cured, the old saying with railroad men is "God bless the man who invented the Pullman sleeping car," but I say "God bless the inventor of Hall's Texas Wonder."

Yours truly,
W. B. CLARK,
M. & O. R. R. Co., Mobile, Ala.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 620, St. Louis, Mo. Send for testimonials. Sold by all druggists.

Mr. and Mrs. A. F. Baines of Cyril were among those who visited Gainesville Monday.

Chas. E. Baird of Morriston made homestead entry in the United States land office Monday.

Mr. and Mrs. A. M. Pournell, who are spending a few days with their daughter, Mrs. L. A. Williams, at Waycross, Ga., write that they are improving wonderfully in health, and are having a "big time" too. Friends will be glad to learn that they are improving, after an illness here of several days.

The numerous friends in this city of Bruce McCollum will regret to learn of the young man's illness. He was stricken with appendicitis, and it became necessary to have an operation performed. The operation so far has proven quite a success, as the patient is resting easily, and it is hoped he will be out again in a few days.

Attention is directed to the change of advertisement of the Keystone Bakery, R. T. Schafer, which appears elsewhere in this issue. Mr. Schafer very cleverly says that, in order to keep on good terms with your family and fellow men, you should keep your head clear and your stomach free from indigestion. He tells you in his ad. how to do it.

New York Racket

Cheapest Store on Earth.

The Greatest Values of the Season . . . .

Can now be seen at the New York Racket. The mammoth stock our buyer bought in the markets of the East has arrived, and we have been taxed to the limit in getting the same in shape for the past two weeks, but we are now ready for the rush. Our store has been crowded in the past because of the matchless values we have always given our customers, and we are prepared to even do better than in the past on many items. Our Dress Goods department has a better selection than ever before and the prices are the lowest.

The "Dixie Girl" Shoe Is the Best . . . . . .

For the price that has ever been shown in the city.

Our Clothing Department for Men and Boys . . . .

Is strictly up-to-date and our prices are lower than you can find.

Beautiful Line of Ladies' Caps and Jackets . . . .

The kind that fit and look pretty and wear well at low prices.

FURNITURE . . .

Just received a big line of Odd Dressers and Hat Racks, which will be sold at low prices. Try a Red Cross Cotton Felt Mattress—the finest Mattress made—and a Blue Ribbon Spring and we will guarantee a good night's rest.

CALL FOR MASS MEETING.

The Ministerial Association Has a Most Important Proposition to Present.

The Ministerial Association of the city of Gainesville, comprising the entire ministry of the city, at their last regular monthly meeting discussed at length the serious question of public charities.

As is well known hardly a day passes that there is not some call upon the pocket-books of the charitably disposed, and in the majority of cases the merchants in and around the square are the ones who are called upon to contribute.

There is no time or opportunity to investigate the merits of the case, or applicant; to refuse seems mean, and many times the aid granted goes to an unworthy person and does more harm than good. Then again there is no fund or provision made by the City Council for the burial of the indigent poor, and this falls either to one of the churches or the general public.

The Ministerial Association desires to suggest to the citizens of Gainesville that, as is done in other places, they organize a "Charity Association," and appoint some person to whom they can send all applicants for assistance, and give him power, after investigation, to furnish such aid as is most necessary, or that in his judgment he considers proper. This would relieve all from the embarrassment of refusing any applicant and thoroughly systemitize the work. Monthly subscriptions, based upon the amount at present given out promiscuously, could be made, and these amounts would be on hand for immediate relief.

With this laudable object in view, the Ministerial Association calls upon all to attend a mass meeting at the court house Tuesday evening, October 24th, at 8 o'clock, and assist in forming this charitable association. Everybody come.

THE YELLOW FEVER.

Pensacola Still Struggling While New Orleans Rejoices.

Pensacola, Oct. 23.—The Sunday night report showed 12 new cases and one death. The cold weather may have a bad effect on the cases under treatment.

Two cases were reported at noon today, but a large number are under suspicion. Dr. Porter is still hopeful.

Total cases, 480; deaths, 68.

At New Orleans.

New Orleans, Oct. 23.—Up to noon today there has not been a single case and no deaths.

Attention, K. of P.

The regular weekly meeting of Mt. Vernon Lodge No. 20, Knights of Pythias, will be held at Castle Hall, over Dutton's bank, this evening at 8 o'clock. Work in rank of Esquire. A full attendance desired.

J. O. LaFontisee and wife were in the city Tuesday night, registering at the Ethel. Mr. LaFontisee is one of the brightest newspaper men ever known in Florida and has held several important editorial positions, the latest being city editor of The Times-Union. In that capacity he made The T.-U. one of the brightest of Southern dailies and by far the best paper in the State. He recently severed his connection with that paper, but it can be depended upon that he will bob up somewhere in Florida at the helm of some newspaper and will prove a power. He is one of the best posted men in the State from a political standpoint, and has a wide acquaintance with public men and wields a powerful pen. The Democrat wishes Mr. LaFontisee success in anything he may undertake.—Live Oak Democrat.

In sending his subscription to The Twice-a-Week Sun, P. H. Westgaard, who is now at Buena Vista with his son-in-law, R. B. Fickle, informs us that Mr. Fickle and himself are going into the business of supplying Miami with stove-wood. He says Miami is a busy place, that he is enjoying good health, and is rid of the cough he had when he left here.
